TENNESSEE CROP ESTIMATES.

Prepared By the Field Agent At Nashville of the U. S. Department of Agriculture.

Some improvement is noted in the cotton crop of Tennessee, since June 25, at which time the condition was possibly the lowest on record. The rains of May and early June having delayed and in many instances entirely stopped plantings, some was planted over, and on the whole the crop is three weeks late, there was some abandonment before June 25, and there has been some since, because of fields becoming so foul that the prospects would not justify the expenditure in an effort to clean out the crop. Labor being scarce, and wages high, many planters did not feel they could afford the expense, with the uncertainties of a crop.

The dry weather during July has enabled planters to clean out all crops that were of promise, and July 25th finds all crops worth the trouble, in fair condition. But in this the drought has had its effect, as the severe working the crop has undergone has left it in poor shape to stand dry weather, many stands were destroyed in the working, and endeavor to clean the grass from the plant, and there is considerable complaint of poor stands. Some rust, but little or no insects reported, crop booming freely, and in most sections fairly well set. The eastern counties still lead the list for Tennessee in condition, having had a more favorable season all through.

The conditions for Tennessee, on July 25, as reported by G. L. Morris, field agent Bureau of Crop Estimates, is 67% of normal and would indicate a crop of 241,600 bales.

For the United States the condition is 67.1%, and represents a yield of 11,001,600 bales.

Safeguarding a Jewel.
"Could you arrange to have the letter carrier call only once a week at my house?" asked Mr. Crosslots.
"What's the idea?" inquired the man at the post office window.
"My wife's afraid the new cook will think he's company coming to dinner and leave before we can explain."

Some men imagine they are the whole orchestra because they have drums in their ears.

Putting It Up to Grandpa.
Howard had not had his breakfast one morning when his grandfather drove up in his car. Howard wanted very much to go along, but his mother said: "But you haven't had your breakfast yet, and grandpa doesn't want to wait."
Howard studied a moment and then replied: "Well if I was a grandpa and had a little boy, I'd say, 'Go on and eat your breakfast and I'll wait for you.'"

Don't Poison Baby.

FORTY YEARS AGO almost every mother thought her child must have PAREGORIC or laudanum to make it sleep. These drugs will produce sleep, and a FEW DROPS TOO MANY will produce the SLEEP FROM WHICH THERE IS NO WAKING. Many are the children who have been killed or whose health has been ruined for life by paregoric, laudanum and morphine, each of which is a narcotic product of opium. Druggists are prohibited from selling either of the narcotics named to children at all, or to anybody without labelling them "poison." The definition of "narcotic" is: "A medicine which relieves pain and produces sleep, but which in poisonous doses produces stupor, coma, convulsions and death." The taste and smell of medicines containing opium are disguised, and sold under the names of "Drops," "Cordials," "Soothing Syrups," etc. You should not permit any medicine to be given to your children without you or your physician know of what it is composed. CASTORIA DOES NOT CONTAIN NARCOTICS, if it bears the signature of Chas. H. Fletcher.

Genuine Castoria always bears the signature of Chas. H. Fletcher.

SAVED TWO FAMOUS PICTURES

Old Masters Taken by British Officer From the Ruins of Ypres Cathedral.

The king of the Belgians will shortly have returned to him two famous pictures which were rescued, four years ago, from Ypres cathedral. It appears that during the bombardment of Ypres in 1915 a young British artillery officer noticed inside the cathedral, which was being heavily shelled, that the only things not shattered by German fire were two large Flemish masters, dated 1600, hanging some 20 feet high on the walls. How to get them and save them for Belgium was the question which immediately presented itself. The officer called two private soldiers to help him, and with the aid of some long gas pipes which had been blown down by the German fire, and two large hooks, the pictures were lowered to the ground. The officer, Lieutenant Daniels, R. A., then cut the pictures out of their frames and put them in a large sack, which he used for a time as a bed. In the end he took them to London, where, with the approval of the Belgian minister, they have been placed on exhibition prior to being returned to King Albert at Brussels.

Self-Announced.
A story told by Bishop Greer illustrates the plain nature of the man. On an occasion when he was to confirm a class a carriage was sent for him in charge of an English coachman who had been imported by a wealthy American. Bishop Greer walked unaccompanied and in non-clerical dress from his front door to the carriage and entered it—but the driver did not move his horses. After waiting for a moment the bishop asked the man why he did not drive on.
"I'm waiting for the lord bishop of New York, sir," the proper person replied.
"Well," said the bishop, "I'm it. Drive on."—Christian Register.

His Complaint.
"Say, looky yur!" began a citizen of the Sandy Mush region, entering the Palace drug store in Tumbinville, "You fellers sold me this yur rat p'izon last week, and three or four of my children got hold of the box and ett up right smart of the stuff. It didn't 'pear to damage 'em none, and I'll be dogged if I don't believe I've been swindled."—Judge.

Dr. Peery's "Dead Shot" is not a "lozeng" or "syrup," but a real old-fashioned dose of medicine which cleans out Worms or Tape-worm with a single dose. Adv.

Practical Man.
"Helen's lips are drifting dust," quoted the literary person. "Now, that's my idea of a poetical line."
"It is rather pretty, I guess," said Mr. Gawker, who hasn't a thought outside of business. "I'm glad you mentioned it."
"Then you are a lover of poetry?"
"No, but that quotation reminds me that I have an engagement in about half an hour with a chap who wants to sell me the state rights to a new type of street sprinkler. I believe there's money in it."—Birmingham Age-Herald.

Not Yet.
"You once said you would share your last dollar with me," whined the son-in-law.
"Yes, but you haven't quite reduced me to that yet," returned the heartless father-in-law.
